For all those of you who couldn't attend SAGE Youth Strand, and for those of you who did, but just didn't get enough, here's your chance to get in on a little bit of the Science-Crate action. We have the Sci-Tech Investigations and Geologist's Boot Camp crates available for an afternoon of adventurous exploration. Here's what the Science Alberta Foundation website has to say about these crates:

Geologist's Boot Camp:

New minerals and rocks have been discovered in an abandoned mineshaft in northern Alberta! The town council has asked junior high students to identify three unknown minerals and rocks. But to learn about the unique properties of rocks and minerals and how they are formed students will first attend geologist's boot camp!

Sci-Tech Investigations:

Explore science and technology in the town of Wellbeville, understand the technology of agri-business in Alberta and consider various perspectives as you plan a road using GPS technology.

The Edmonton Association for Bright Children (EABC) is the Edmonton chapter of the Alberta Associations for Bright Children (AABC). EABC is a volunteer organization of families that provides activities, resources and support for bright children and their families. Membership is open to all.
