Keys, pedals, strings, levers, felt... what do all these things have in common? They are all part of the anatomy of a piano, of course! Come get down and dirty with the inner workings of these wonderful instruments.

Why would someone water a piano? What is the difference between damper and sustain, and what *does* that funny pedal in the middle do? If questions like these burn in your heart and mind, come seek the answers from the great piano-dude himself, Don Vaugeois. And if burning questions aren't really your motivation, at least come to find out what happened to a poor, unsuspecting piano when Don's daughter cut loose with a chainsaw!

The Edmonton Association for Bright Children (EABC) is the Edmonton chapter of the Alberta Associations for Bright Children (AABC). EABC is a volunteer organization of families that provides activities, resources and support for bright children and their families. Membership is open to all.
